

# Nation Code

## Website Project

Week 3

{codenation}<sup>®</sup>

# Project Brief / Things to Submit

- } You will be making a 3-page website using HTML and CSS (no JavaScript)
- } You will need a Trello for your website, each one of you must have your own Trello
- } You will be submitting a written document consisting of 8 questions
- } You will then submit your website to GitHub

**What will you be doing  
each day next week?**

# Monday

- } You will be learning HTML
- } We will be doing a code-along where together we create a helpful “cheat sheet” so you can look back at it when you work on your project
- } You will then begin your solo project, working only with HTML to start to create the content of it

# Tuesday

- } You will be learning CSS and how you can use it with HTML
- } You will then learn Flexbox, which will teach you how to organise content on your page
- } We will then have a code-along where together we will make an interactive navbar
- } You will then work on your solo project, adding CSS to it

# Wednesday

- In the morning I will introduce the questions to you and walk you through how you should answer them
- You will have the rest of the day to work on your website project and the first 6 questions (I will need your first draft of them by Thursday afternoon)

# Thursday

- } Usually in the morning (sometimes this can differ) you will have your Employability talk by Dan Russell. This tends to last around 2 hours.
- } You will then have the rest of the day to work on your website project and submit the first 6 questions to me

# Friday

- } In the morning I will walk you through GitHub and together we will submit your website (don't worry, you can update it throughout the day as you finalise your website!)
- } You will then finish up your questions and submit them to me
- } You will make sure your Trello is complete
- } Finally you will make sure your website is complete
- } Keira and I will go over everything with you and once we are happy, you will be free to go!

**How should you start your  
website project?**

# What will your website be about?

- } A portfolio?
- } A recipe website?
- } A business website?
- } A website about your favourite game or TV show?
- } A website about a fake company?

# When you know what your website is about..

- Research other websites to get inspiration
- Decide on the theme of your website –  
Minimalism is always a good option, it's clean, simple and looks professional!
- What will you have on your other two pages?  
Something about the artist? Sweet and savoury recipes?
- What content will you have on those pages?

**This afternoon..**

**Make a folder on your  
desktop called "website"**

# Questions?
